## 2020 RESERVE RIESLING

91 *Robert Parker*  
WINE ADVOCATE

*"The 2020 Riesling Reserve comes in at 43.8 grams per liter of residual sugar, 7.1 of total acidity and 9.79% alcohol. The balance here is a little too sugary in some ways, but because some of the juice is botrytis-affected (typically, about half), the flavors are nuanced, not just pure sugar. It never seems as sweet as the statistics would suggest, and it never loses its balance while still feeling rich in the mouth. That is pretty much the style of this wine, not to say it isn't on the sweet side. Overall, this comes in at a very nice price. It delivers a ton of quality for modest money. If it is your style, it's a steal."*
